COMMENTS

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: the independent claims define a method and apparatus for feeding a long workpiece to a multi-head sewing machine arrangement. The feeding comprises a machine table and a plurality of sewing heads arranged in a row along a first direction. The first direction being parallel to the surface of the table. A workpiece setting frame arranged for releasably holding a long workpiece, which has a predetermined width and a longitudinal direction. The setting frame is movable substantially parallel to the table and a feeding mechanism for feeding the long workpiece relative to the workpiece setting frame in a direction substantially parallel the first direction. The dependent claims further limit the structure and method of the feeding of the long workpiece to the multi-head sewing machine arrangement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
